

DECLARATION ON OCCUPATIONAL RISK PREVENTION, MEDIUM ENVIRONMENT AND QUALITY

Fibra Danhos Administrator (AFD) considers as fundamental principles in all its activities the commitments with the prevention of labor risks, the protection of the environment and quality.

These principles materialize permanently in the achievement of its priority objectives:

Customer satisfaction: through the identification and fulfillment of the requirements in terms of technical requirements, price and term, within the established contractual framework.

Satisfaction of the work team: through the anticipation of risks, the adoption of all the necessary measures to avoid personal injuries and deterioration of health, promoting the motivation, training, professional and personal development of its employees.

Satisfaction of society: minimizing the negative impact on the environment and ecosystems in relation to socioeconomic activity.

Compliance with results: AFD considers that no goal and/or objective can justify the assumption of uncontrolled risks in terms of prevention, the environment and quality.

Company profitability and shareholder value creation: AFD's business model must ensure the continuity, competitiveness and profitability of the business, which is directly related to fostering the generation of sustainable value for stakeholders.

These principles form the basis from which AFD establishes its business model and objectives to achieve a continuous improvement in its activities and provides itself with the necessary tools to comply within the framework of current legislation.

This statement is required of all stakeholders, who must know it and apply it in the field of their professional performance.
